### **Sample 1**

I would like to talk about how I went to visit Shida night market in Taipei, which was an unforgettable experience for me.

I went to Taiwan with my friends last winter to celebrate the Christmas and we went to visit a local market called Shida night market, which is also known as normal university night market in English.

It is located in Taipei, which is the capital of Taiwan and therefore it is relatively easier to get to the market because there is subway available in Taipei.

There were countless stalls there selling all kinds of products. For example, we had a feast of fresh seafood and tropical fruits. Also, I bought some souvenirs and my favorite is a statue of 101 Taipei Tower, which is the landmark of Taiwan.

It was a lot of fun shopping there because there were so many things to try and I also got to experience the local culture.

### **Sample 2**

I would like to talk about Wulin Night Market, which is a open air street market I always visit.

Wulin Night Market is located in the city center, which means it is very easy for me to go there by subway.

I went there on a Saturday night last month with Mike, who is my best friend from university because he never went to a local Night Market, thus I decided to take him to Wulin Night Market.

I bought many street food and also some small stuff for fun. Mike bought a lot of things because he couldn't believe how cheap they are at the market.

We had a lot of fun and I thought it was very interesting that I could enjoy myself so much with so little money at the market. I would definitely go back when the weather is cooler in the fall.
