

**Describe a thing you own that you want to replace**

You should say:

What it is

what you use it for

How you got it

And explain why you want to replace it

**Sample 1**

I would like to talk about my iPhone, which is something that I would like to replace recently.

I bought this iPhone 3 years ago as a birthday gift to myself and I have been using it almost everyday. It has been a great help to me for my school and work, and I can't live without it now.

However, I accidentally crack its screen last week. I took it to the apple store immediately but the staff told me it is not worth repairing because would cost me a fortune and I should rather buy a new model instead.

However, I was still considering if I should buy another iPhone or another smartphone from another brand. However, I really need to decide fast because I need to use it all the time and a cracked screen is really uncomfortable to work with.

**Sample 2**

I would like to talk about my MacBook, which is something that I would like to replace recently.

I bought this MacBook 3 years ago as a birthday gift to myself and I have been using it almost everyday. It has been a great help to me for my school and work, and I can't live without it now.

However, I broke its screen last week by accident. I took it to the apple store immediately but the staff told me it is not worth repairing because it would cost me a fortune and I should rather buy a new model instead.

However, I was still considering if I should buy another MacBook or a laptop from another brand. However, I really need to decide fast because I need to use my computer almost everyday and a broken screen is really uncomfortable to work with.
